COMPANY INFORMATION

ERC DATAPLUS, INC. MANAGEMENT

BIOGRAPHIES

Wiser Brown, Vice President & Controller. Wiser is responsible for all financial and administrative functions, including developing business plans, financial reporting, developing acquisition strategies, and identifying acquisition opportunities. Previous positions included Controller and Director of Planning and Administration at Decision Strategies/Fairfax International, an international investigative consulting firm; Controller of Genesis Automation, a developer and manufacturer of robotics; and Controller of Trident, Inc., an Exxon Corporation spin-off that produced ink jet printing equipment. Wiser received his Bachelor's Degree and MBA from the University of Virginia.

Peter I. Clarke, Vice President & Chief Information Officer. Peter is responsible for applications development and programming. Previous employment included a Senior Technical Consultant position with The Wyatt Company (now Watson Wyatt) where he was responsible for IVR benefit enrollment systems. Peter's keen intuitive sense for developing user-friendly interactive voice response (IVR) and Internet solutions and user interfaces has been the backbone of ERC's emergence as a premier solutions provider. Peter holds a B.S. degree in Computer Science from Fordham University.

Paul L. Rathblott, President and CEO. Paul initially conceived of the ideas that have been developed into the ARGOS®, Selectech® and TeleClock® systems and user interfaces. Prior positions include serving as an aide for the Senate of Pennsylvania and as an attorney for Xerox Corporation; Avis Rent A Car; and as General Counsel for Baker Industries, the parent company of Wells Fargo Guard and Burns International security companies. Paul co-founded a national network of large companies that worked together for legislative initiatives such as the Targeted Jobs Tax Credit Act. Paul is a graduate of the University of Pennsylvania (BA), Temple University School of Law (JD), and attended the London School of Economics. Paul previously served as a Trustee of Save the Children, a worldwide development and relief agency.

Joel Pelzner, Vice President - Business Development. Joel is responsible for the delivery of all of ERC's products and services which includes production, client support and quality management. Joel's career experience includes 25 years with the IBM Corporation in various engineering, sales/marketing/product and management positions. He also has worked as an independent sale and marketing consultant to provide personalized and experienced market analysis and business development services assisting clients in achieving a competitive advantage. Joel graduated with his B.S. from San Jose State in Industrial Technology and received his M.B.A. from Santa Clara University in Management.

COMPANY INFORMATION

ERC Dataplus Named 1999 Connecticut Technology Fast 50 Award Winner

Human Resources Technology Company Ranked 8th

NORWALK, Conn., October 20, 1999--ERC Dataplus, Inc., a leading human resources technology solutions company, today announced that it placed 8th among the 50 fastest growing technology companies in Connecticut over the last five years, according to the Connecticut Technology Council and Deloitte & Touche, LLP. ERC Dataplus' impressive growth record was formally recognized at the third annual Fast 50 awards banquet held last night at the Quick Center for the Arts at Fairfield University. ERC, the only technology company with a human resources focus included in the Fast 50, achieved a 3,267 percent rate of sales growth since 1994. ERC also was notified that it is one of 17 Connecticut companies that have qualified for the Technology Fast 500, which recognizes the 500 fastest growing technology companies in the United States.

"The Fast 50 award is a testament to the dedication of our staff and our innovative human resources technology products. Placing within the top ten of the state particularly is rewarding," said Paul Rathblott, ERC founder and president. "We combine the power of computers, telecommunications and the Internet to create products and services that simplify, enhance and speed up human resources processes and procedures, to help make our clients more productive and responsive to their employees' and customers' needs."

ERC's line of proprietary technology products includes Selectech® automated job pre-screening process and ARGOS 360® comprehensive support for large-scale multirater performance feedback efforts. "Each of our services combines technology with traditional and cutting-edge human resources systems to reduce the time and cost of gathering the data necessary to implement fully human resources and business strategy around its staffing, development or employee feedback. This combination creates a better, more productive work

environment and a better bottom line. We have just scratched the surface with our proprietary programs and plan to increase our momentum with the upcoming release of a variety of new human resources technology products designed for 21st century companies. The first of these is LastWord automated exit surveys."

The Connecticut Technology Fast 50 annually recognizes the 50 fastest growing technology companies in the state with more than 3,800 technology companies based there. The award identifies those companies and leaders who shape today's technology industry and give true meaning to the words perseverance, creativity, risk and passion. The ranking is based on a five-year historic (1994-98) percentage revenue growth. The list consists of public and private, large and small companies in all technology segments, including biotechnology, semiconductors, Internet, software and communications. Eligible companies must be Connecticut-based technology companies in business for a minimum of five years with 1994 revenues of at least \$50,000.

"ERC has demonstrated superior technical skill, a fearless attitude towards risk, and ambitious determination in meeting the necessary challenges to become a Fast 50 award winner," said David Carver, partner, Deloitte & Touche, LLP. "The company's persistence in the face of fierce competition and, most importantly, the ability to attract and retain good people has placed them in a category beyond most within their industry."

Deloitte & Touche, LLP, one of the nation's leading professional services firms, provides auditing and accounting, tax and management consulting services. The company comprises 28,000 people in more than 100 U.S. cities.

The Connecticut Technology Council is a partnership of Connecticut providers and users of technology committed to growing and diversifying the state's technology base. The organization is considered the voice of technology companies within the state and the primary advocate for issues affecting that sector.

Founded in 1993 and headquartered in Norwalk, Connecticut, ERC Dataplus, Inc. is a business solutions company with a focus on human resources issues. Using state-of-the-art Internet and telephone technology, ERC Dataplus enables its clients to save time and reduce the administrative burdens associated with recruiting, multirater reviews, employee retention and assessment of employees' and customers' opinions and behaviors.
